Skills

Python programming

Problem solving

Django

backend web development

DSA

AUTOCAD

DBMS

SQL

HTML

C programming

Problem solving

Django Rest Framework

API Development

PROJECT

DATA VISUALIZER, *Presenly working on it* [🔗](#)

i have created this data visualizer from just a json data . In this I converted the json data to a website with various graphs and filters

ATTENDANCE MANAGEMENT STUDENT APP,

I am working on it currently [🔗](#)

I have written this sites's backend in Django and the data is being processed completely by using a Rest API written in Django Rest Framework All the details are there in the readme of this git

FEATURE ENGINEERING IN ML,

learning machine learning [🔗](#)

I have done feature engineering on various data sets

STUDYBUD, *I am working on it currently* [🔗](#)

This is a website for selling online courses . I have provided email verification system , invoice mailing and also added a management functionality for wallet of the ambassadors who will be selling the course with there referral. There is a read API also for quick data viewing .

E - COMMERCE WEBSITE [↗](#)

The site's backend is written in Django and there is a specific app in it for managing the user account details it has a poor frontend but efficient backend

API [↗](#)

This a normal CRUD API from which data is being fetched on the frontend

Professional Experience

BACKEND DEVELOPER, FARCRAWS (ISRO STARTUP) [↗](#)

November 2023

WORKING ON GSM MODULES HERE

BACKEND DEVELOPER, ZORWAY [↗](#)

November 2023
